

now pending in the application.

Support for Applicant's new claims introduced herein is found generally, *inter alia*, on page 46, line 23 through page 59, line 28 of the specifications as filed (including Figs. 16-17).

No new matter has been introduced by these amendments. Replacement sheets for these new claims are submitted herewith.

Applicant has also herein made three editorial amendments to the specification; no new matter has been introduced.

Applicant specifically reserves the right to prosecute claims of differing or broader scope than those presented herein in continuation or divisional applications.

Lastly, Applicant notes that any amendments or claim cancellations made herein and not substantively discussed above are made solely for the purposes of more clearly and particularly describing and claiming the invention, and not for purposes of overcoming art. The Examiner should infer no (i) adoption of a position with respect to patentability, (ii) change in the Applicant's position with respect to any claim or subject matter of the invention, or (iii) acquiescence in any way to any position taken by the Examiner, based on such amendments or cancellations not substantively discussed.

If the Examiner has further questions or comments regarding this Amendment, he is invited to contact the undersigned directly at (858) 675-1670.

Respectfully submitted,

Dated: Sept. 27, 2002
